Adaptive US has helped prepare for CCBA certification, The study material provided by Adaptive is very helpful and they have multiple practice tests. The simulation tests were most helpful, you can review your answers and explanation to see if your understanding about the concepts are correct. If you have any questions they are quick with Responses.

Excellent learning resources

I trained with Adaptive for the CCBA course and I was truly impressed with the work they put in to help BAs succeed, not only in the exams, but also in their jobs. The trainers were excellent, with ample industry experience to guide with examples. The highlight of the program is the learning platform that has a plethora of effective tools like visual aids, flashcards, a concise version of the BABoK, Question Bank (definitely the highlight of the platform) etc., to help understand the BABoK in detail, without feeling utterly overwhelmed. Also, the staff are very supportive and responsive. Overall, it was an amazing experience and I would highly recommend Adaptive US to anyone looking to ace the IIBA exams!

Passed CCBA on first attempt!

Over the summer, I researched CCBA training providers and decided to choose Adaptive because their website was quite detailed and there was a real-time chat window where my queries were answered immediately by a real person not AI. I also found their pricing reasonable with rebate/discount options which weren't available with other training providers. They also provide BA templates and BA tools training – although there's a separate fee for that service.

Adaptive is a great website to use if you are attempting to become CCBA certified. They offer courses, tutorials, study guide of the BABOK, videos of techniques and many simulation questions which helps students build their confidence to be ready for the exam questions. Also, their customer support is easy to get a hold of, friendly and willing to answer any question possible. Thank you Su, Ann, Sam and LN for caring about my journey to become CCBA certified. I passed the exam yesterday and know that it would've been very difficult to pass without your support.
